USAMA BADAR

usamabadarbasra@gmail.com

Backend Developer

House # 452, Street # 14, Impirial Garden,
Paragon City Lahore

<https://usamabasraa.github.io/BackendDev/>

SUMMARY

Experienced Backend Developer with 3 years of expertise in designing, implementing, and maintaining scalable server-side applications. Proficient in multiple programming languages, including PHP, and Laravel, with a strong focus on developing RESTful APIs and integrating third-party services. Adept at optimizing database performance, ensuring security best practices, and collaborating with cross-functional teams to deliver high-quality software solutions. Committed to continuous learning and staying up-to-date with the latest industry trends and technologies.

EDUCATION

University Of Sargodha

Bachelor of Science in Computer Science
2016 – 2020

Punjab Group of Colleges

F.Sc Pre-Engineering
2014 – 2016

SKILLS & TOOLS

- HTML/CSS3
- Bootstrap
- Javascript
- JQuery
- React
- Vue
- Redux
- OOP
- MVC
- WordPress
- Git
- npm
- yarn
- APIs
- Ajax
- JSON
- Figma
- Adobe Photoshop
- PHP
- Laravel
- SQL Server
- C#
- Jira
- ESLint
- Google PageSpeed Insights

PROFESSIONAL EXPERIENCE

Backend Developer

LEADconcept | 2023 - Present

- Design, develop, and maintain server-side applications.
- Write clean, maintainable, and efficient code using languages such as PHP, LARAVEL, etc.
- Design and manage databases, including creating schemas, optimizing queries, and ensuring data integrity.
- Develop and maintain RESTful APIs.
- Integrate third-party APIs and services into the application.
- Work with SQL and NoSQL databases.

Backend Developer

Intellectual Works | 2021 - 2023

- Design, develop, and maintain server-side applications.
- Optimize server-side code and database queries for maximum efficiency and scalability.
- Perform regular maintenance, updates, and upgrades to ensure system stability and security.
- Analyze business requirements and design technical solutions to meet those needs.
- Use version control systems (e.g., Git) to manage codebase, track changes, and collaborate with team members.

Backend Intern

Hub Sol | 2020 - 2021

- Support the development and maintenance of server-side logic using languages such as Laravel, PHP, etc.
- Assist in the implementation of backend functionality to support frontend applications.
- Help design and maintain database schemas and queries.
- Assist in optimizing database performance and ensuring data integrity using SQL (MySQL, PostgreSQL) and NoSQL (MongoDB, Redis) databases.
- Aid in the development of RESTful APIs.
